

# CCP CIZER D-810

## POLYESTER PLASTICIZERS

CCP CIZER D-810 Non-phthalate. Excellent compatibility with PVC, Low volatility and Excellent Electrical Performance. Low Temperature Flexibility. Approved by JHPA.

Composition : PTA ester type.  
M.W : ab 390

### INFORMATION

Because Polyester Plasticizers for PVC have better property in Oil Resistance and Excellent Non-Migration for PS and ABS plastic, they can be used in Anti-Migration wire, file, Gasket , Oil Resistance Hoses, Gloves or Shoes and Insulation Tape.

In addition, they can also be applied to rubber products, after using polyester plasticizer the properties of Oil, Heat and cold resistance of rubber products can be improved and is better than adding other conventional Plasticizers

### APPLICATION

Agriculture cover film, Blowing-air swimming pool, Outdoor water-repellent cloth.

Physical Properties	Value
Appearance	Liquid
APHA below	ab 60 Max
Vis.	ab 20 cps
Packing	200 KG Drum
